What has been the most challenging part of your job recently? And, have you made any changes to try and solve some of those issues? educating and explaining the value of on-site document destruction versus off-site.

What have been the most important steps in your life (schools, jobs, etc.) that have led you to where you are today? The support and confidence of my family.

Many people who work within the FM world have to act as 'leaders' in their jobs. What do you think makes a good leader, and have you done anything recently that has made you a leader? A leader is someone who strives for collective successes instead of simply individual success.

A year from now, what will you have hoped to accomplish, professionally or personally? To have the Chicago/Milwaukee region recognized as the leader in the Shred-It family. On a personal note - i'd really like to say a year from now I will be well rested, but that's highly unlikely with my 2nd son being born in March!
